Thank you for taking time to address our members at our Executive Wednesday on 25 January 2012. Your presentation made the occasion one of the most memorable and inspiring events we have hosted.

We believe that every guest that attended the event had absorbed at least 50% of your presentation, without having any kind of fantasies!

With the technical challenges you experienced due to the feedback noise received from the lapel microphone and also the pillars that made it challenging for you to make eye contact with the guests, we can highly recommend that you have exceeded all the guests expectations by working with these challenges and also proving that you are a professional and comfortable speaker.

Chamber of Commerce and Industry, Johannesburg will definitely highly recommend your services and we are looking forward to working with you soon!

The feedback we have received from the guests has been very positive. Please find attached the Twitter Results for your information.

We wish you all the best with your future business ventures and know that you will only grow from strength to strength.

Best Regards

Nadia Oberholzer
